Maple	<u>Climate zones</u>	Volcanoes and earthquakes (NB: this is a longer Scheme)	
Breath of Study	Understand the significance of the geographic zones of the world. Locate the geographic zones of the world. Describe and understand key aspects of: • physical geography, including: climate zones, biomes and vegetation belts, rivers, Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.	Identify key geographical features of the countries of the United Kingdom, and show an understanding of how some of these aspects have changed over time. Describe and understand key aspects of: mountains, volcanoes and earthquakes and the water cycle	Locate the world's countries, with a focus on Europe and countries of particular interest to pupils. Understand geographical similarities and differences through the study of human and physical geography of a region or area in a European country.
Threshold concepts	Investigate Places Investigate Patterns Communicate Geographically	Investigate places Investigate Patterns Communicate Geographically	Investigate Place Communicate Geographically
Milestones	Use maps, atlases, globes and digital/computer mapping to locate countries and descrybe features.	Name and locate counties and cities of geographical regions and their identifying human and physical characteristics, including hills, mountains,	Ask and answer geographical questions about the physical and human characteristics of a location.

- Use fieldwork to observe and record the human and physical features in the local area using a range of methods including sketch maps, plans and graphs and digital technologies.
- Use a range of resources to identify the key physical and human features of a location.

Name and locate the Equator,
Northern Hemisphere, Southern
Hemisphere, the Tropics of Cancer and
Capricorn, Arctic and Antarctic Circle and
date time zones. Describe some of
the characteristics of these geographical
areas.

 Describe geographical similarities and differences between countries.

Use the eight points of a compass, fourfigure grid references, symbols and key to communicate knowledge of the United Kingdom and the wider world. cities, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time.

 Name and locate the countries of Europe and identify their main physical and human characteristics.

Describe key aspects of:

• physical geography, including: rivers, mountains, volcanoes and earthquakes and the water cycle.

Describe geographical similarities and differences between countries.

- Explain own views about locations, giving reasons.
- Use maps, atlases, globes and digital/computer mapping to locate countries and describe features.

Use a range of resources to identify the key physical and human features of a location.

 Name and locate counties and cities of the United

Kingdom, geographical regions and their identifying human and physical characteristics, including hills, mountains, cities, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time.

 Name and locate the countries of Europe and identify their main physical and human characteristics.

Describe key aspects of:

- physical geography, including: rivers, mountains, volcanoes and earthquakes and the water cycle.
- human geography, including: settlements and land use.
